

IMMEA China

The Institute for Music and Movement Education Advancement (IMMEA) is a not-for-profit, professional organisation managed by a volunteer committee of music and movement educators. IMMEA is based in Shenzhen, China, and was formed in 2020. It is recognised as an associated institute with the International Orff Schulwerk Forum, Salzburg (IOSFS).

The aim of IMMEA is to provide ongoing sequential development across all sectors working in creative music and movement education, with a focus on engagement in the core values and principles of the Orff Schulwerk approach. We believe that learning music through listening, singing, playing, moving, dancing, and creating, should be an active, holistic, and joyful experience.

IMMEA organises regular professional development events, including book study groups, training courses and workshops, with both local and international presenters.
